

Fixed-graph C4/S1 forward interpolation; two development cases
Native hard predictions are references, not experimental ground truth. Lines connect tested points only.

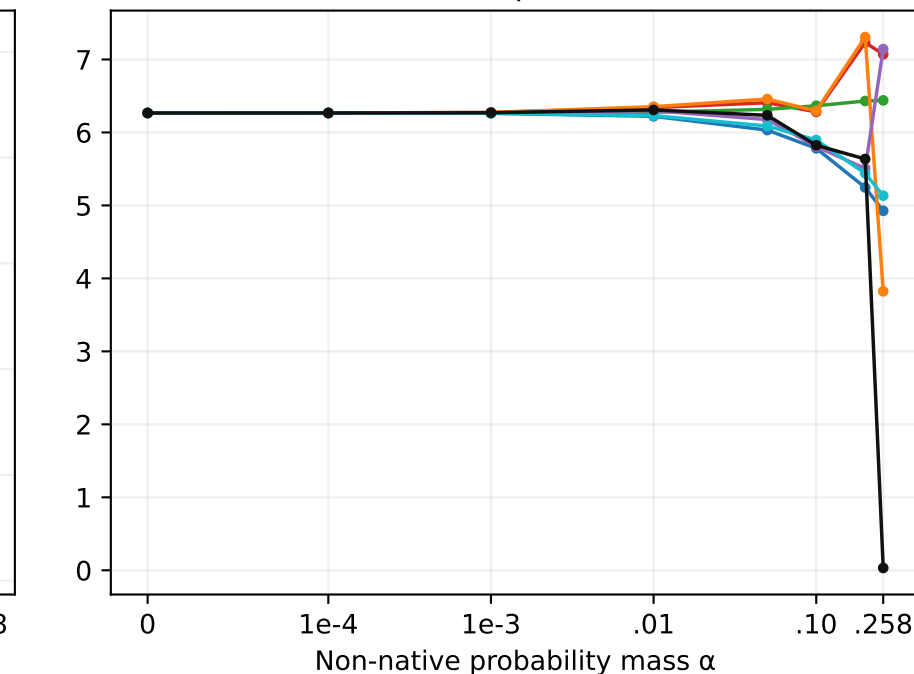

8bzn — CA displacement vs native hard (Å)

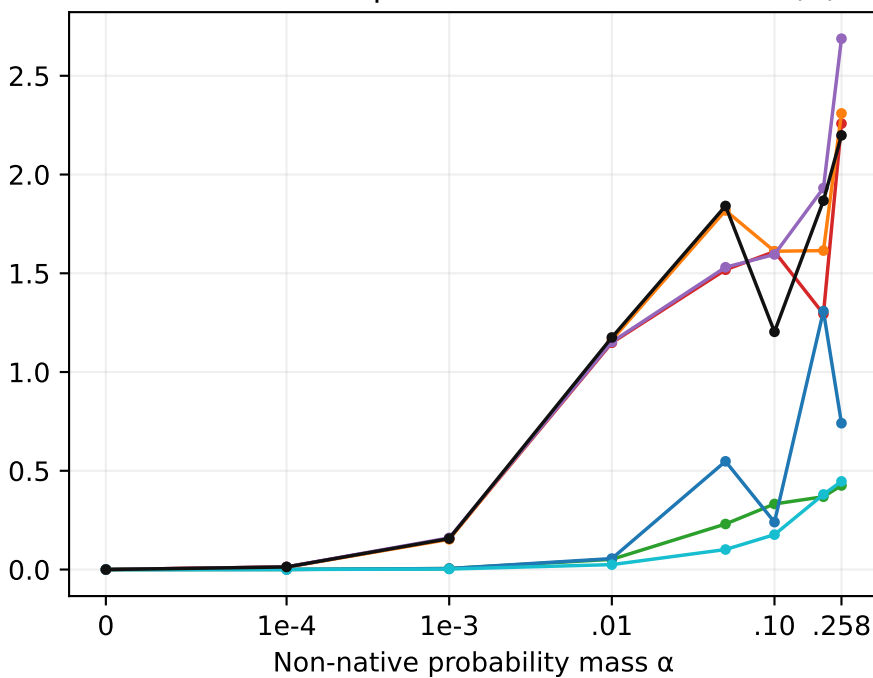

8bzn — Noncovalent pairs <1 Å

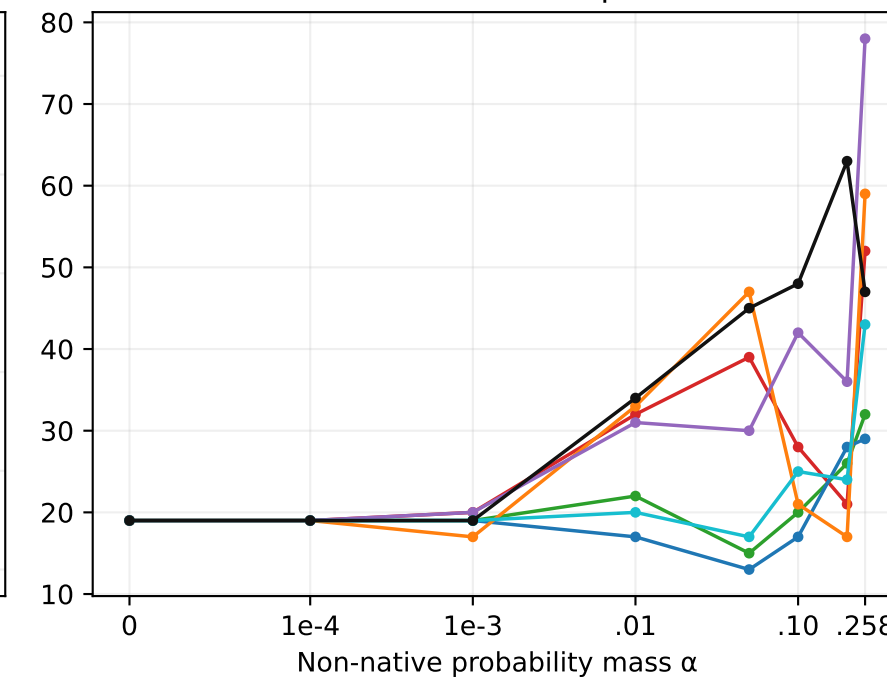

8bzn — Tracked pair distance (Å)

control — CA displacement vs native hard (Å)

control — Noncovalent pairs <1 Å

control — Tracked pair distance (Å)
